W3C CSS validation result TextArea (CSS level 3 + SVG)

Congratulation! There are no bugs

The document is validated based on <u>CSS level 3 + SVG</u> !

So that your readers can see it, make sure your website is readable everywhere, you can expose this icon to every page we've validated. Here's the XHTML you can use to add the icon to your webpage:

```
<p>
    <a href="http://jigsaw.w3.org/css-validator/check/referer">
        <img style="border:0;width:88px;height:31px"
            src="http://jigsaw.w3.org/css-validator/images/vcss"
            alt = "Valid CSS!" />
    </a>
</p>
```

```
<p>
<a href="http://jigsaw.w3.org/css-validator/check/referer">
    <img style="border:0;width:88px;height:31px"
        src="http://jigsaw.w3.org/css-validator/images/vcss-blue"
        alt = "Valid CSS!" />
    </a>
</p>
```

(close the img tag instead of /> if you are using HTML <= 4.01)

The W3C validators rely on community support for hosting and development.

<u>Donate</u> and help us build better tools for a better web.

If you want, you can download a copy of the image to store in your local web directory and change the XHTML section above to point to the local image and not to this server.

If you want to link to this page (e.g. this validation result) to make it easier to re-validate your page later, or for others to validate your page, the URI is:

```
http://jigsaw.w3.org/css-validator/validator$link
or
http://jigsaw.w3.org/css-validator/check/referer (HTML / XML document only)
```

|

(But you can also add this page to your bookmarks or favorites.)
